CHICAGO, December 5, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co.'s of New York:

GENTLEMEN: The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and undiminished responsibility, and a record for equitable settlement, certainly surpassed by none, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

HOPE AND COURAGE.

True hope is based on energy of character. A strong mind always hopes, and has always cause to hope, because it knows the mutability of human affairs and how slight a circumstance may change the whole course of events.

Such a spirit, too, rests upon itself; and if at last lost, it has saved its integrity and worth. Hope awakens courage, while despondency is the least of all evils; it is the abandonment of good—the giving up the bottle of life with dead nothingness.

He who can implant courage in the human soul is the best physician. To seek to govern men by their fears and their wants, is an unworthy purpose; the desire to rule by means of cowardice is of itself cowardice.

Love inspires courage and hope, and this is double the giver and preserver of life. Whatever teaches us to combat the manifold evils and assaults of life, enables us to win the crown of victory.

Special care, therefore, ought to be taken in education to teach what true courage is, as well in social and domestic as well as public affairs—and by what means it may be most successfully sustained.

A TEXT FOR BOYS.

A man of very pleasing address, but very dishonest, in his practices, once said to an honorable merchant, "whose word was as good as his bond," "I would give fifty thousand dollars for your good name."

"Why so?" asked the other in some surprise.

"Because I could make a hundred dollars out of it."

The honorable character which was at the bottom of the good name he cared nothing for; it was only the reputation, which he could turn to account in a money point of view, which he coveted.

But a good name cannot be bought with silver; it, of all other possessions, must be fairly earned. When it is possessed, it is better business capital than a great sum of money. It is a capital any boy and girl may secure. Honesty must be its foundation, even in the smallest particulars. When an employer says, "That is a boy I can trust," he will always find himself in demand, provided he joins with it industry. "The hand of the diligent maketh rich."

THEY tell a good story of Jerry Thompson and Charley Leonard two printer friends and inseparables, who were out in a small boat fishing, a long distance from the piers, the other day, and who were overtaken by a violent "northeaster," which not only rendered their piscatorial efforts fruitless, but made it strongly suggestive of shipwreck and disaster.

After struggling manfully against wind and tide until it was evident that it was useless, they both gave up, discouraged and affrighted, and very naturally began to think over their long-forgotten Sunday School lessons. After brooding over their desperate situation awhile, a bright idea—a ray of hope—seemed to shoot athwart the mind of J——. Said he, "Charley, can you pray?"

"No," he groaned, "I could once, when I was a boy, but that time was a long while before I knew you."

Then ensued another dismal silence, until a white-cap combed over the stern sheets, and roused Jerry with a shock, when he groaned out:

"Charley, can you sing a *Sam?*"

"No," said Charley, "I don't know any song but "Champagne Charley," "Ding dang doo" and "Old Obedio," and I can't sing much, no how."

"Well," rejoined Jerry, who by this time was both perplexed and desperate, "Charley, I didn't think you was such a blarsted heathen. If you can't pray, nor sing a Sam, do take up a contribution! for we *must have some sort of religious exercises!*"

The twain was finally picked up about midnight off Long John's lighthouse at the Calumet, but if you wish to see an irate individual, say "religious exercise" to either our Damon or Pythias!—*Rounds' Printers' Cabinet.*

AN Indiana man took a friend home to tea the other evening, without giving his wife notice. That night she talked herself into a paralysis of the tongue. Now all the men in the neighborhood are sending for friends and taking them home at all hours, but the women are too sharp and retain a most dogged silence.

One of the Yale Students asked Mr. Beecher if a man who is naturally cold and unsympathetic should go into the ministry. "Yes," Mr. Beecher replied, "if he will take an icicle to ... invalid ... with."

"Angelina, can you tell me why your lovely eyes are like friends separated by distant climes?" "No, Augustus I can't. Tell me, oh! tell me why." "Because they correspond but never meet."

Mobile has two twins who cannot be punished for any offense because neither can be identified.

The noise of mixing milk and water at Jersey City in the morning sounds like Niagara.

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the paryt's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned, and the American idea of an individuals's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital, and for labor, the creator of capital, the largest opportunities, and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime, and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustious services of Ulyssess S. Grant have commended him to the hearts of the American people, and with him at our head we start to-day on a new march to victory.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

Rx No one remedy is louder called for by the necessities of the American people than a sure and safe cure for **Fever and Ague.** Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. *Prevention* is better than cure; for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of **Fever and Ague** from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are **Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis,** and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co.'s of New York:

GENTLEMEN: The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an insurance organization, than yours has passed through here successfully and creditably. HOPE AND COURAGE.

True hope is based on energy of character. A strong mind always hopes, and has always cause to hope, because it knows the mutability of human affairs and how slight a circumstance may change the whole course of events.

Such a spirit, too, rests upon itself; and if at last lost, it has saved its integrity and worth. Hope awakens courage, while despondency is the least of all evils; it is the abandonment of good—the giving up the bottle of life with dead nothingness.

He who can implant courage in the human soul is the best physician. To seek to govern men by their fears and their wants, is an unworthy purpose; the desire to rule by means of cowardice is of itself cowardice.

Love inspires courage and hope, and this is double the giver and preserver of life. Whatever teaches us to combat the manifold evils and assaults of life, enables us to win the crown of victory.

Special care, therefore, ought to be taken in education to teach what true courage is, as well in social and domestic as well as public affairs—and by what means it may be most successfully sustained.

A TEXT FOR BOYS.

A man of very pleasing address, but very dishonest, in his practices, once said to an honorable merchant, "whose word was as good as his bond," "I would give fifty thousand dollars for your good name."

"Why so?" asked the other in some surprise.

"Because I could make a hundred dollars out of it."

The honorable character which was at the bottom of the good name he cared nothing for; it was only the reputation, which he could turn to account in a money point of view, which he coveted.

But a good name cannot be bought with silver; it, of all other possessions, must be fairly earned. When it is possessed, it is better business capital than a great sum of money. It is a capital any boy and girl may secure. Honesty must be its foundation, even in the smallest particulars. When an employer says, "That is a boy I can trust," he will always find himself in demand, provided he joins with it industry. "The hand of the diligent maketh rich."

THEY tell a good story of Jerry Thompson and Charley Leonard two printer friends and inseparables, who were out in a small boat fishing, a long distance from the piers, the other day, and who were overtaken by a violent "northeaster," which not only rendered their piscatorial efforts fruitless, but made it strongly suggestive of shipwreck and disaster.

After struggling manfully against wind and tide until it was evident that it was useless, they both gave up, discouraged and affrighted, and very naturally began to think over their long-forgotten Sunday School lessons. After brooding over their desperate situation awhile, a bright idea—a ray of hope—seemed to shoot athwart the mind of J——. Said he, "Charley, can you pray?"

"No," he groaned, "I could once, when I was a boy, but that time was a long while before I knew you."

Then ensued another dismal silence, until a white-cap combed over the stern sheets, and roused Jerry with a shock, when he groaned out:

"Charley, can you sing a *Sam?*"

"No," said Charley, "I don't know any song but "Champagne Charley," "Ding dang doo" and "Old Obedio," and I can't sing much, no how."

"Well," rejoined Jerry, who by this time was both perplexed and desperate, "Charley, I didn't think you was such a blarsted heathen. If you can't pray, nor sing a Sam, do take up a contribution! for we *must have some sort of religious exercises!*"

The twain was finally picked up about midnight off Long John's light-house at the Calumet, but if you wish to see an irate individual, say "religious exercise" to either our Damon or Pythias! —*Rounds' Printers' Cabinet.*

AN Indiana man took a friend home to tea the other evening, without giving his wife notice. That night she talked herself into a paralysis of the tongue. Now all the men in the neighborhood are sending for friends and taking them home at all hours, but the women are too sharp and retain a most dogged silence.

One of the Yale Students asked Mr. Beecher if a man who's naturally cold [illegible] go into the [illegible] Mr. Beecher replied [illegible] take an icicle to [illegible]."

"Angelina, can you tell me why your lovely eyes are like friends separated by distant climes?" "No, Augustus I can't. Tell me, oh! tell me why." "Because they correspond but never meet."

Mobile has two twins who cannot be punished for any offense because neither can be identified.

The noise of mixing milk and water at Jersey City in the morning sounds like Niagara.

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the paryt's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned, and the American idea of an individuals's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital, and for labor, the creator of capital, the largest opportunities, and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot-box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime, and we witness with pride the reduction of the principal of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustious services of Ulyssess S. Grant have commended him to the hearts of the American people, and with him at our head we start to-day on a new march to victory.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

℞ No one remedy is louder called for by the necessities of the American people than a sure and safe cure for **Fever and Ague.** Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. *Prevention* is better than cure; for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of **Fever and Ague** from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are **Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis,** and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink,** Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER** and **A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

THE CAMPAIGN FOR THE UNION.

Republican meetings will be held at the times and places specified below. All who are in favor of perpetuating the Union of these States, and preserving the peace, dignity, honor and prosperity of the same; all who are opposed to the man who, in 1860, said: "If the Southern States desire to withdraw from this Union," etc., he would be willing to the same, and again, on the 19th of September, 1872, said at Pittsburg, that if the Southern people prove that they want disunion, he would consent to it; and all who are in favor of the Patriot, Soldier, and Statesman, who so nobly defended his country in its terrible baptism of blood, are not only earnestly invited, but everybody is requested to be present:

A Grand Tanner Rally at Decatur.
MONDAY, OCT. 14TH.
Blue Mound—Gen Jesse H Moore and a Tanner Rally.

MR. TRUMBULL is still going about the country making charges against the administration. The biggest charge he has yet made is the charge of $10,000 for an hour's work in the McCardle case.

THERE are grounds for believing that Delaware will give President Grant a respectable majority in November. The recent local elections in that State point to such a possibility. The Republicans have gained ground in a great many localities.

ILLINOIS VALUATION AND TAX LEVY.

The total equalized value of all property in the State, as fixed by the State Board of Equalization, is $510,000,000, against $505,000,000 in 1871. Of this amount the State tax on about $38,000,000 will be diverted from the State Treasury under the railroad aid law of 1869. From the remainder of the usual deduction of ten per cent. is made for errors, delinquents and expenses—thus reducing the State revenue producing valuation to $425,000,000. The law requires that 20 cents on the $100 shall be levied to support the schools, and 15 cents to provide for the repayment of the money advanced to Chicago to pay off her lien on the canal, this latter tax going to what is called the canal redemption fund. It was also provided by law at the last session of the General Assembly that $1,500,000 should be raised this year for the support of the State Government, and $200,000 to pay interest on the State debt. For this purpose a levy is required of 35 3-10 cents and 4 7-01 cents on the $100 respectively. Thus all the items together require a levy of 75 cents on the $100 of equalized valuations.—The amount of State tax directed to pay the interest on local railroad subscription will, it is estimated, amount to $110,000, and this is the amount which the people of the whole State have to make up to benefit those who subscribed to railroads.

GEORGIA is the first State to respond to Mr. Greeley's sentiments expressed at Pittsburgh, that "if the South say they want disunion, I will consent to it."

It is meet that the State of Toombs and Stephens should be foremost in ratifying such secession doctrine. We are only surprised that the majority is not larger. Mr. Toombs might yet live to verify his prediction, that he would call the roll of his slaves on Bunker Hill, should Greeley be elected.

INTENDED ELECTION FRAUDS.

It is reported that several New Yorkers have been engaged in the Greeley interest to go to Philadelphia, and vote on Tuesday next, have revealed the proposed plan of operations.

They were to have free passes, board and two dollars for every vote they could cast; they were to be furnished with slips of papers the name to be voted on, and stating in what precincts they were registered. These slips were not to be given out till the morning of the election, and each man was expected to vote about twenty times. The ring-leaders in the scheme have been arranging the registry, and the expectations was that from 8,000 to 10,000 fraudulent votes would be cast. The names and descriptions of the democratic repeaters are being obtained as far as possible, and will be sent to Philadelphia the latter part of this week, so that preparations can be made for their arrest. The men engaged in the scheme are mostly those who have been notorious heretofore for tampering with elections in this city.

SEVEN years and a half ago, the New York *World* paid this just and pertinent tribute to Gen. Grant's personal character:

"General Grant's history should teach us to discriminate better than we Americans are apt to do between glitter and solid work. Our proneness to run after demagogues and spouters may find a wholesome corrective in the study of such a character as his. * * * His career is a lesson in practical Democracy; it is a quiet satire on the dandyism, the puppyism, and the shallow affectation of our fashionable exquisites, as well as upon the swagger of our glib tongued demagogues."

The estimate dispassionate history will place upon General Grant could not be better expresesed.

PROSPECTS IN OHIO—The Republicans of Ohio have completed a full canvass in that State by counties, in which they figure up a republican majority of 12,500. The concede Hamilton county, in which Cincinnati is located, to the democracy by 500, and Franklin, in which Columbus is situated, by 1,600.

GREAT PUBLIC WORKS AND WAR.—There has been a rumor that France, alarmed at the hostile temper of Italy, has been taking precautions so to undermine the Mount Cenis Tunnel, on the French side, that, in case of war, it could be easily destroyed; and, in point of fact, the French engineers do seem to have been engaged, though without authority, in some operations. But without receiving any remonstrances from Italy, the French Government has ordered the immediate discontinuance of these operations. Could not the tunnel itself be neutralized—forbidden to either nation in case of war, under the guarantee of all the European powers? There is something frightful in the thought of the sacrifice of all the labor and wealth essential to the great international undertakings, at the first quarrel between two peoples. We suppose the Atlantic cable, for instance, would, under present circumstances, be ruthlessly cut, if war broke out between America and any European country.—*London Spectator.*

THE greatest roorback of the campaign has just been brought to light. It was concocted by the Greeleyites to influence the Pennsylvania and Indiana elections. A pamphlet was prepared alleging frauds, corruption and discrepancies in the accounts of the U. S. Treasury Department. It was intended to circulate this document just before the elections and before it could be examined and answered by the Republicans. Its discovery will prevent the fraud, and will also put the people on their guard against other similar attempts to deceive them by these bogus reformers.

AN Indianapolis dispatch dated last Thursday evening says: "The Indiana State Fair is a great success. To-day being the principal display of the week, the attendance was unusual, over 40,000 people visiting the grounds. The principal attraction is the display of live stock, which is conceded to be the finest ever made in the West. In cattle J. H. Pickrell, of Harristown, Ill., and H. Sadousky & Son, of Indianola, Ill., made the best display and take most of the premiums. In sheep H. F. Morgan, Elyria, Ohio, took the majority of the premiums. In swine the awards were divided among several exhibitors."

GEORGIA.—The organs of Greeley's Confederates are making a great ado over the election of the Democratic candidate for Governor of Georgia on Wednesday. They are welcome to all the crumbs of comfort they can extract out of this Georgian victory, which shows a large reduction of the Democratic majority of four years ago (over 44,000), notwithstanding the additions of thousands of white voters since then by the amnesty acts of Congress. This year the election was placed earlier than usual to shorten the time in which the colored voters could pay their poll-tax—a piece of contemptible political trickery, which has not yet attracted the attention of the pure and zealous "Reformers" of the Greeley school.

AMONG the men who asked the pardon of Mercer, there were 1,900 citizens of Pennsylvania, including the representatives of fourteen papers, and Col. John W. Forney, the most determined opponent of Hartranft.—Among the respectable citizens of Philadelphia who asked for the pardon of Yerkes, on the ground of "doubt whether he was guilty of any legal offense," are 133 members of the Philadelphia bar, and that noted liberal, Col. A. K. McClure. These facts show that there is not the slightest veneering of truth in the assertions of the *Tribune* and the *Chronicle*, which it echoes.

CARL SCHURZ, the chief conspirator in the Greeley drama, is at Washington, helping the Democratic committee there to dish up a new installment of falsehoods against the financial operations of the Administration, for publication. The dish of lies is to be served out to the people of Pennsylvania, for political effect, on the day before the State election.

INDIANA is all right; or the signs are all wrong. The State has been canvassed by the Republicans, and a majority of several thousand is confidently expected by men who are not often wrong in their calculations.

THE personal quarrel between the great men of the Republican party in Pennsylvainia will not hurt the cause as much as was at one time expected.—On all hands there is a disposition to let the ill feeling be confined to those among whom it originated, and to stand by the party for the sake of the country.

Good News from Long Creek.—Last evening the political questions of the day were discussed at Long Creek School House to a large and enthusiastic audience. A stirring and effective speech by Hon. W. T. Moffet, was followed by Col. L. F. Muzzy, of this city. We would be glad to lay before our readers a complete synopsis of this speech, but are unable to do so at the present time. He began and traced the history of the two parties during the past twelve years. The Republican party was a party of progress, the Democratic, a party of opposition; the one a leader of the other. The Democratic party, after having fought for twelve years all of the measures of the Republican party, come out in a platform endorsing all those measures that had been passed in spite of their utmost efforts. Mr. Muzzy's effort was one of the best of the campaign, and all were pleased with his speech. Long Creek is all right for Grant.

The New York Life Insurance Company is about opening an office in this city, and judging from the amount of documents distributed in our midst by their agent, Mr. A. S. Butler, we conclude that they mean business. This is one of the oldest and most reliable companies in the country, and their Tontine investment policy must meet with universal favor, being, as it is, the most liberal plan of life insurance yet presented to the public and one worth the earnest consideration of all who wish to obtain a competency for old age, and at the same time provide for the support of the widow and orphans in the event of an early demise.

FROM NEW YORK.

NEW YORK, Oct. 4.—President Grant has addressed a letter, under date of the 2nd inst., to the manufacturers of Philadelphia, in reply to their invitation to visit their establishments, saying that he cannot at present, but at a latter day, when the excitement of the political campaign has passed, he will take great pleasure in making them a visit. He closes as follows: "I feel a very great interest in the success of the manufacturing interests of the country and their development, looking upon their growth as necessary to the solvency of the nation by keeping down the balance of trade against us and in dignifying labor and making it remunerative. You have my best wishes for the success of your respective interets, and of all the manufacturers and producers the land over, until our productions by home labor, for export, exclusive of a promise to pay, equal our impertations or exceed them."

NEW YORK, Oct. 4.—There was an air of activity about everything and everybody at the Republican headquarters to-day. The rooms were thronged with visitors during the earlier part of the day, and a great number of dispatches were received from Pennsylvania, Ohio and Indiana. The elections in these States were the general topics of conversation, the conviction of all being that a great treble victory for the Republicans would be flashed over the country on Tuesday night. Mr. Chandler, Secretary of the National Republican Committee, is confident the Republicans will carry the elections in Indiana, Pennsylvania and Ohio, and this belief is shared by all prominent politicians who frequent the headquarters of the committee.

The latest reports received at the Fifth Avenue Hotel from the above State assert that the Republican cause has grown stronger, and the prospects of victory are positive. The news from Indiana is particularly very flattering, and indicates a decided victory for Brown, the Republican candidate for Governor. Hartranft, it is admitted, has labored under many difficulties during the present campaign in Pennsylvania, but no doubt of his election, by a good majority, is entertained.

Trustworthy information from Georgia says the Democratic victory in that State is purely the result of a system of intimidation inaugurated throughout the State. About some of the towns sentinels were placed on the roads leading into the place to frighten off negro voters from the country. Threats of violence were resorted to in every part of the State to keep the colored men away from the polls. At Macon, and many other points, negroes refused to go the polls, because of the peril of their lives.

FROM ILLINOIS.

JACKSONVILLE, ILL., Oct. 4.—After being heralded for weeks as one of the big guns of the Democracy, advertised by mammoth posters, and through the Greeley papers, Hon. James C. Allen, of Illinois, spoke at the Court house, in this city, this evening, to an audience which at no time exceeded in number three hundred persons. Four successive efforts have so far been made during the present political campaign by the Greeleyites to get up monster meetings in Jacksonville, but all have been wretched failures. Palmer, Robinson, Black, and Allen have spoken here in succession, and not one of them had an audience which exceeded three hundred souls, including men, women, boys and girls. So terribly disheartened are the Democracy at these mortifying failures that some of their leaders do not hesitate to declare that it is absolutely useless to make another attempt at a mass meeting. The Republicans of Morgan county are most hopeful of victory, while the best posted Democrats, under their discouragement, evince a strong inclination to throw up the sponge and abandon the fight.

The Meeting at Mt. Pulaski.—If every other locality within twenty miles of Mt. Pulaski sends as many people to the meeting there to-day as Decatur sent, the crowd will be one of the largest ever assembled in Illinois. The special train which left here at one o'clock this afternoon consisted of ten cars, all well filled. The delegation numbered not less than 500 people, some 100 of whom were uniformed Tanners. In the crowd was a company of Tanners from Cerro Gordo.

FROM OHIO.

COLUMBUS, O., October 4.—John Barclay was hanged at noon to-day in the county Jail of this (Franklin) county, for the murder of Charles F. Gardner, last October. Barclay, when on the scaffold, declared that he was guilty of the horrible crime of murder, and was prepared to die. He advised all to beware of intoxicating liquors, and said that they had placed him on a murderers scaffold. After bidding "good-bye" to all the spectators, his arms and legs were pinioned, the black cap was placed over his head, and in a second more his body was swinging in the air. The body was almost still for a second after the fall of the trap, but soon vibrated slowly backward and forward.—On being touched by the surgeon in attendance his whole body shook as if with violent cold. After hanging for nearly twelve minutes he was declared dead, and was delivered to the surgeons.

CINCINNATI, Oct. 4.—Senator Wilson was introduced on 'Change to-day by President Covington, of the Chamber of Commerce. The announcement of his presence was followed by prolonged applause. He spoke briefly, entirely ignoring politics, and congratulating the merchants upon the prosperity of Cincinnati, and of the State, through which he had recently traveled everywhere to see evidence of progress. After the conclusion of the speech he was presented to a large number of members, and was finally, in company with President Goshorn, of the Industrial Exposition, and the President of the Chamber of Commerce, escorted to the exposition hall.

THE CAMPAIGN FOR THE UNION.

Republican meetings will be held at the times and places specified below. All who are in favor of perpetuating the Union of these States, and preserving the peace, dignity, honor and prosperity of the same; all who are opposed to the man who, in 1860, said: "If the Southern States desire to withdraw from this Union," etc., he would be willing to the same, and again, on the 19th of September, 1872, said at Pittsburg, that if the Southern people prove that they want disunion, he would consent to it; and all who are in favor of the Patriot, Soldier, and Statesman, who so nobly defended his country in its terrible baptism of blood, are not only earnestly invited, but everybody is requested to be present:

SATURDAY, OCT. 12TH.

A Grand Tanner Rally at Decatur.

MONDAY, OCT. 14TH.

Blue Mound—Gen Jesse H Moore and a Tanner Rally.

MR. TRUMBULL is still going about the country making charges against the administration. The biggest charges he has yet made is the charge of $10,000 for an hour's work in the McCardle case.

THERE are grounds for believing that Delaware will give President Grant a respectable majority in November. The recent local elections in that State point to such a possibility. The Republicans have gained ground in a great many localities.

ILLINOIS VALUATION AND TAX LEVY.

The total equalized value of all property in the State, as fixed by the State Board of Equalization, is $510,000,000, against $505,000,000 in 1871. Of this amount the State tax on about $38,000,000 will be diverted from the State Treasury under the railroad aid law of 1869. From the remainder of the usual deduction of ten per cent. is made for errors, delinquents and expenses—thus reducing the State revenue producing valuation to $425,000,000. The law requires that 20 cents on the $100 shall be levied to support the schools, and 15 cents to provide for the repayment of the money advanced to Chicago to pay off her lien on the canal, this latter tax going to what is called the canal redemption fund. It was also provided by law at the last session of the General Assembly that $1,500,000 should be raised this year for the support of the State Government, and $200,000 to pay interest on the State debt. For this purpose a levy is required of 35 3-10 cents and 47-01 cents on the $100 respectively. Thus all the items together require a levy of 75 cents on the $100 of equalized valuations.—The amount of State tax directed to pay the interest on local railroad subscription will, it is estimated, amount to $110,000, and this is the amount which the people of the whole State have to make up to benefit those who subscribed to railroads.

GEORGIA is the first State to respond to Mr. Greeley's sentiments expressed at Pittsburgh, that "if the South say they want disunion, I will consent to it."

It is meet that the State of Toombs and Stephens should be foremost in ratifying such secession doctrine. We are only surprised that the majority is not larger. Mr. Toombs might yet live to verify his prediction, that he would call the roll of his slaves on Bunker Hill, should Greeley be elected.

INTENDED ELECTION FRAUDS.

It is reported that several New Yorkers have been engaged in the Greeley interest to go to Philadelphia, and vote on Tuesday next, have revealed the proposed plan of operations.

They were to have free passes, board and two dollars for every vote they could cast; they were to be furnished with slips of papers the name to be voted on, and stating in what precincts they were registered. These slips were not to be given out till the morning of the election, and each man was expected to vote about twenty times. The ring-leaders in the scheme have been arranging the registry, and the expectations was that from 8,000 to 10,000 fraudulent votes would be cast. The names and descriptions of the democratic repeaters are being obtained as far as possible, and will be sent to Philadelphia the latter part of this week, so that preparations can be made for their arrest. The men engaged in the scheme are mostly those who have been notorious heretofore for tampering with elections in this city.

SEVEN years and a half ago, the New York *World* paid this just and pertinent tribute to Gen. Grant's personal character:

"General Grant's history should teach us to discriminate better than we Americans are apt to do between glitter and solid work. Our proneness to run after demagogues and spouters may find a wholesome corrective in the study of such a character as his. * * * His career is a lesson in practical Democracy; it is a quiet satire on the dandyism, the puppyism, and the shallow affectation of our fashionable exquisites, as well as upon the swagger of our glib tongued demagogues."

The estimate dispassionate history will place upon General Grant could not be better expressed.

PROSPECTS IN OHIO.—The Republicans of Ohio have completed a full canvass in that State by counties, in which they figure up a republican majority of 12,500. The concede Hamilton county, in which Cincinnati is located, to the democracy by 500, and Franklin, in which Columbus is situated, by 1,500.

GREAT PUBLIC WORKS AND WAR.—There has been a rumor that France, alarmed at the hostile temper of Italy, has been taking precautions so to undermine the Mount Cenis Tunnel, on the French side, that, in case of war, it could be easily destroyed; and, in point of fact, the French engineers do seem to have been engaged, though without authority, in some operations. But without receiving any remonstrances from Italy, the French Government has ordered the immediate discontinuance of these operations. Could not the tunnel itself be neutralized—forbidden to either nation in case of war, under the guarantee of all the European powers? There is something frightful in the thought of the sacrifice of all the labor and wealth essential to the great international undertakings, at the first quarrels between two peoples. We suppose the Atlantic cable, for instance, would, under present circumstances, be ruthlessly cut, if war broke out between America and any European country.—*London Spectator.*

THE greatest roorback of the campaign has just been brought to light. It was concocted by the Greeleyites to influence the Pennsylvania and Indiana elections. A pamphlet was prepared alleging frauds, corruption and discrepancies in the accounts of the U. S. Treasury Department. It was intended to circulate this document just before the elections and before it could be examined and answered by the Republicans. Its discovery will prevent the fraud, and will also put the people on their guard against other similar attempts to deceive them by these bogus reformers.

AN Indianapolis dispatch dated last Thursday evening says: "The Indiana State Fair is a great success. To-day being the principal display of the week, the attendance was unusual, over 40,000 people visiting the grounds. The principal attraction is the display of live stock, which is conceded to be the finest ever made in the West. In cattle J. H. Pickrell, of Harristown, Ill., and H. Sadonsky & Son, of Indianola, Ill., made the best display and take most of the premiums. In sheep H. F. Morgan, Elyria, Ohio, took the majority of the premiums. In swine the awards were divided among several exhibitors."

GEORGIA.—The organs of Greeley's Confederates are making a great ado over the election of the Democratic candidate for Governor of Georgia on Wednesday. They are welcome to all the crumbs of comfort they can extract out of this Georgian victory, which shows a large reduction of the Democratic majority of four years ago (over 44,000), notwithstanding the additions of thousands of white voters since then by the amnesty acts of Congress. This year the election was placed earlier than usual to shorten the time in which the colored voters could pay their poll-tax—a piece of contemptible political trickery, which has not yet attracted the attention of the pure and zealous "Reformers" of the Greeley school.

AMONG the men who asked the pardon of Marcer, there were 1,900 citizens of Pennsylvania, including the representatives of fourteen papers, and Col. John W. Forney, the most determined opponent of Hartranft.—Among the respectable citizens of Philadelphia who asked for the pardon of Yerkes, on the ground of "doubt whether he was guilty of any legal offense," are 133 members of the Philadelphia bar, and that noted liberal, Col. A. K. McClure. These facts show that there is not the slightest veneering of truth in the assertions of the *Tribune* and the *Chronicle*, which it echoes.

CARL SCHURZ, the chief conspirator in the Greeley drama, is at Washington, helping the Democratic committee there to dish up a new installment of falsehoods against the financial operations of the Administration, for publication. The dish of lies is to be served out to the people of Pennsylvania, for political effect, on the day before the State election.

INDIANA is all right: or the signs are all wrong. The State has been canvassed by the Republicans, and a majority of several thousand is confidently expected by men who are not often wrong in their calculations.

THE personal quarrel between the great men of the Republican party in Pennsylvania will not hurt the cause as much as was at one time expected.—On all hands there is a disposition to let the ill feeling be confined to those among whom it originated, and to stand by the party for the sake of the country.

Good News from Long Creek.—Last evening the political questions of the day were discussed at Long Creek School House to a large and enthusiastic audience. A stirring and effective speech by Hon. W. T. Moffet, was followed by Col. L. F. Muzzy, of this city. We would be glad to lay before our readers a complete synopsis of this speech, but are unable to do so at the present time. He began and traced the history of the two parties during the past twelve years. The Republican party was a party of progress, the Democratic, a party of opposition; the one a leader of the other. The Democratic party, after having fought for twelve years all of the measures of the Republican party, come out in a platform endorsing all those measures that had been passed in spite of their utmost efforts. Mr. Muzzy's effort was one of the best of the campaign, and all were pleased with his speech. Long Creek is all right for Grant.

The New York Life Insurance Company is about opening an office in this city, and judging from the amount of documents distributed in our midst by their agent, Mr. A. S. Butler, we conclude that they mean business. This is one of the oldest and most reliable companies in the country, and their Tontine investment policy must meet with universal favor, being, as it is, the most liberal plan of life insurance yet presented to the public and one worth the earnest consideration of all who wish to obtain a competency for old age, and at the same time provide for the support of the widow and orphans in the event of an early demise.

...Shoaff, of the *Magnet*, was on the street to-day, but looks badly.

...Rev. Jacob Bear is the presiding officer, of the Illinois Eldership now being held at the Bethel Church.

FROM NEW YORK.

NEW YORK, Oct. 4.—President Grant has addressed a letter, under date of the 2nd inst., to the manufacturers of Philadelphia, in reply to their invitation to visit their establishments, saying that he cannot at present, but at a latter day, when the excitement of the political campaign has passed, he will take great pleasure in making them a visit. He closes as follows: "I feel a very great interest in the success of the manufacturing interests of the country and their development, looking upon their growth as necessary to the solvency of the nation by keeping down the balance of trade against us and in dignifying labor and making it remunerative. You have my best wishes for the success of your respective interests, and of all the manufacturers and producers the land over, until our productions by home labor, for export, exclusive of a promise to pay, equal our importations or exceed them."

NEW YORK, Oct. 4.—There was an air of activity about everything and everybody at the Republican headquarters to-day. The rooms were thronged with visitors during the earlier part of the day, and a great number of dispatches were received from Pennsylvania, Ohio and Indiana. The elections in these States were the general topics of conversation, the conviction of all being that a great treble victory for the Republicans would be flashed over the country on Tuesday night. Mr. Chandler, Secretary of the National Republican Committee, is confident the Republicans will carry the elections in Indiana, Pennsylvania and Ohio, and this belief is shared by all prominent politicians who frequent the headquarters of the committee.

The latest reports received at the Fifth Avenue Hotel from the above State assert that the Republican cause has grown stronger, and the prospects of victory are positive. The news from Indiana is particularly very flattering, and indicates a decided victory for Brown, the Republican candidate for Governor. Hartranft, it is admitted, has labored under many difficulties during the present campaign in Pennsylvania, but no doubt of his election, by a good majority, is entertained.

Trustworthy information from Georgia says the Democratic victory in that State is purely the result of a system of intimidation inaugurated throughout the State. About some of the towns sentinels were placed on the roads leading into the place to frighten off negro voters from the country. Threats of violence were resorted to in every part of the State to keep the colored men away from the polls. At Macon, and many other points, negroes refused to go the polls, because of the peril of their lives.

FROM ILLINOIS.

JACKSONVILLE, ILL., OCT. 4.—After being heralded for weeks as one of the big guns of the Democracy, advertised by mammoth posters, and through the Greeley paper, Hon. James C. Allen, of Illinois, spoke at the Court house, in this city, this evening, to an audience which at no time exceeded in number three hundred persons. Four successive efforts have so far been made during the present political campaign by the Greeleyites to get up monster meetings in Jacksonville, but all have been wretched failures. Palmer, Robinson, Black, and Allen have spoken here in succession, and not one of them had an audience which exceeded three hundred souls, including men, women, boys and girls. So terribly disheartened are the Democracy at the mortifying failures that some of their leaders do not hesitate to declare that it is absolutely useless to make another attempt at a mass meeting. The Republicans of Morgan county are most hopeful of victory, while the [illegible] Democrats, under their discouragement, evince a strong inclination to throw up the sponge and abandon the fight.

The Meeting at Mt. Pulaski.—If every other locality within twenty miles of Mt. Pulaski sends as many people to the meeting there to-day as Decatur sent, the crowd will be one of the largest ever assembled in Illinois. The special train which left here at one o'clock this afternoon consisted of ten cars, all well filled. The delegation numbered not less than 500 people, one half of whom were uniformed Tanners. In the crowd was a company of Tanners from Cerro Gordo.

FROM OHIO.

COLUMBUS, O., October 4.—John Barclay was hanged at noon to-day in the county Jail of this (Franklin) county, for the murder of Charles F. Gardner, last October. Barclay, when on the scaffold, declared that he was guilty of the horrible crime of murder, and was prepared to die. He advised all to beware of intoxicating liquors, and said that they had placed him on a murderers scaffold. After bidding "good-bye" to all the spectators, his arms and legs were pinioned, the black cap was placed over his head, and in a second more his body was swinging in the air. The body was almost still for a second after the fall of the trap, but soon vibrated slowly backward and forward.—On being touched by the surgeon in attendance his whole body shook as if with violent cold. After hanging for nearly twelve minutes he was declared dead, and was delivered to the surgeons.

CINCINNATI, Oct. 4.—Senator Wilson was introduced on 'Change to-day by President Covington, of the Chamber of Commerce. The announcement of his presence was followed by prolonged applause. He spoke briefly, entirely ignoring politics, and congratulating the merchants upon the prosperity of Cincinnati, and of the State, through which he had recently traveled everywhere to see evidence of progress. After the conclusion of the speech he was presented to a large number of members, and was finally, in company with President Goshorn, of the Industrial Exposition, and the President of the Chamber of Commerce, escorted to the exposition hall.

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the MOST PERFECT, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY

CANNOT BE SURPASSED.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

...The physicians inform us that the cases of ague are again increasing and that there are a large number of cases of diptheria and other diseases of the throat in and about the city.

...The cinders from the Rolling Mill are being utilized. The street and gutter in front of the REPUBLICAN office are being repaired with them. From all appearances this will make a substantial pavement, and we think it would be a wise plan for the Council to have a few wagon loads of these cinders hauled and thrown about the streets of the city.

...The *Magnet* informs its readers that the Irish and German companies marched "in the rear of each other" at the parade the other night. We may be a little obtuse, but we would like to know whether they marched "in the rear of each other" at the same time, or whether they kept up a continuous change of places.

...Some drunken fellow raised quite a sensation near the St. Nicholas Hotel last night. Having indulged in the "critter" entirely too freely for good health, he concluded that he was about to die, and called on the bystanders to assist him in the operation, but the manner in which their assistance was rendered did not suit him exactly, so he changed his mind about dying and concluded that he could get away with almost any of the men in that part of the city. He now repines in the calaboose.

Saturday Night!

HON. B. F. PARKS,

OF AURORA,

AN OLD TIME DEMOCRAT,

WILL SPEAK at the Court-house on Saturday evening, October 5th. Turn out, and give him a hearing.

Removal of Mortgaged Property.—Last Friday night Wm. Faris and a man named Mitchell departed from Blue Mound township, taking with them a lot of horses, three of which had been previously mortgaged to Kain & Co., to secure a debt. Marshal Haworth and Constable Weitsel started in pursuit, and tracked the parties to the south-east corner of Madison county, where some of the horses had been left in charge of a settler. Marshal Haworth, who was alone when the horses were found, sent back for Weitsel, who had the papers, watching the property in the meantime. When Weitsel came up Haworth placed him in charge of the horses, and then started after Faris, who was threshing grain some two miles distant. In his absence the women of the house made an attack upon Weitsel, endeavoring to rescue the property, coming at him with knives and pistols, but the Marshal soon returned with Faris, and matters were then adjusted satisfactorily. It was discovered that the mortgaged horses had been secreted, but Faris settled the claim of Kain & Co., and was not molested further.

Real Estate Transfers.—The following real estate transfers have been made since our last report:

...If a young woman wishes to have herself published as fascinating, beautiful, and accomplished, let her pack up her clothes in a dirty towel, crawl out of the back window some dark, rainy night, and elope with the man that feeds and curries her dad's horses. The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the MOST PERFECT, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY

CANNOT BE SURPASSED.

CAUTION. None genuine unless bearing their trade mark stamped on every frame.

...The physicians inform us that the cases of ague are again increasing and that there are a large number of cases of diptheria and other diseases of the throat in and about the city.

...The cinders from the Rolling Mill are being utilized. The street and gutter in front of the REPUBLICAN office are being repaired with them. From all appearances this will make a substantial pavement, and we think it would be a wise plan for the Council to have a few wagon loads of these cinders hauled and thrown about the streets of the city.

...The *Magnet* informs its readers that the Irish and German companies marched "in the rear of each other" at the parade the other night. We may be a little obtuse, but we would like to know whether they marched "in the rear of each other" at the same time, or whether they kept up a continuous change of places.

...Some drunken fellow raised quite a sensation near the St. Nicholas Hotel last night. Having indulged in the "critter" entirely too freely for good health, he concluded that he was about to die, and called on the bystanders to assist him in the operation, but the manner in which their assistance was rendered did not suit him exactly, so he changed his mind about dying and concluded that he could get away with almost any of the men in that part of the city. He now repines in the calaboose.

Saturday Night!

HON. B. F. PARKS,

OF AURORA,

AN OLD TIME DEMOCRAT,

WILL SPEAK at the Court-house on Saturday evening, October 5th.
Turn out, and give him a hearing.

Removal of Mortgaged Property.—Last Friday night Wm. Faris and a man named Mitchell departed from Blue Mound township, taking with them a lot of horses, three of which had been previously mortgaged to Kain & Co, to secure a debt. Marshal Haworth and Constable Weitsel started in pursuit, and tracked the parties to the south-east corner of Madison county, where some of the horses had been left in charge of a settler. Marshal Haworth, who was alone when the horses were found, sent back for Weitsel, who had the papers, watching the property in the meantime. When Weitsel came up Haworth placed him in charge of the horses, and then started after Faris, who was threshing grain some two miles distant. In his absence the women of the house made an attack upon Weitsel, endeavoring to rescue the property, coming at him with knives and pistols, but the Marshal soon returned with Faris, and matters were then adjusted satisfactorily. It was discovered that the mortgaged horses had been secreted, but Faris settled the claim of Kain & Co., and was not molested further.

...If a young woman wishes to have herself published as fascinating, beautiful, and accomplished, let her pack up her clothes in a dirty towel, crawl out of the back window some dark, rainy night, and elope with the man that feeds and curries her dad's horses. Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

FIRST:

THE STEINWAY PIANOS have been awarded the

For American Pianos, by the UNANIMOUS VERDICT of the International Jury, and placed at the head of all others—the United States not being represented among the jurors.

SECOND:

All their "scales," peculiarities of construction, and various improvements, have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over-Strung Piano System introduced by Steinway & Sons, the fact may be stated that, at the Paris Exposition, out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals (the *first* and *third* prizes), and eight received silver medals, while, of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals, and twenty-two silver medals—a proportion of

Harper's Weekly,

Notices of the Press:

The Model Newspaper of our country.—Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—*New York Evening Post.*

Its columns contain the finest collections of reading-matter that are printed. * * * Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—*Boston Traveller.*

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone. Its reading-matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—*N. Y. Sun.*

"Unquestionably the Best Sustained Work of the kind in the World."

Harper's Magazine

Notices of the Press:

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

A repository of biography and history, literature, science and art, unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed, all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation, N. Y.*

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor,** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back,** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

For American Pianos, by the UNANIMOUS VERDICT of the International Jury, and placed at the head of all others—the United States not being represented among the jurors.

SECOND:

All their "scales," peculiarities of construction, and various improvements, have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over-Strung Piano System introduced by Steinway & Sons, the fact may be stated that, at the Paris Exposition, out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals (the *first* and *third* prizes), and eight received silver medals, while, of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals, and twenty-two silver medals—a proportion of

Harper's Weekly,

Splendidly Illustrated,

Notices of the Press:

The Model Newspaper of our country.—Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—*New York Evening Post.*

Its columns contain the finest collections of reading-matter that are printed. * * * Its illustrations are numerous and beautiful, being furnished by the chief artists of the country.—*Boston Traveller.*

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone. Its reading-matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—*N. Y. Sun.*

"Unquestionably the Best Sustained Work of the kind in the World."

Harper's Magazine

Notices of the Press:

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

A repository of biography and history, literature, science and art, unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed, all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation, N. Y.*
